

Spas Zahariev

SOFTWARE ENGINEER LEAD

Zurich, Switzerland

☎ (+41) 76-212-0497 | ✉ spas.zah@gmail.com | 🏠 https://spaszah.site | 📱 SpasZahariev | 🌐 spas-zahariev

Summary

Software Engineering Lead with 7+ years across fintech and large-scale consulting, specialising in backend systems (Java, Python) and cloud delivery (Azure, GCP). Experienced in leading and mentoring engineering teams while owning architecture from design through production. Extends beyond backend with hands-on full-stack and AI/ML work, with a strong focus on clean architecture and pragmatic CI/CD practices.

Work Experience

EPAM Systems

Zurich, Switzerland

SOFTWARE ENGINEER LEAD (PROMOTED FROM SENIOR SOFTWARE ENGINEER)

Oct. 2021 - Present

- Architected and led delivery of a Python workflow to scrape and parse SQL lineage from multiple analytics data warehouses, publishing results daily to Azure Purview so auditors can easily trace where data originates from and where it is hosted.
- Led a team shipping a Java-based, Azure-hosted metadata synchronisation service across multiple systems (500K updates/day) so regulatory mandated data stayed current, reducing audit and fine risk.
- Serves on internal expert assessment committees; mentors engineers and supports technical interviews.

JPMorgan Chase

London, United Kingdom

SOFTWARE ENGINEER

Sep. 2019 - Oct. 2021

- Built and launched a regulatory intraday liquidity dashboard with live metrics (WebSockets, React/Redux) and automated Excel reporting, streamlining workflows for 200+ business analysts.
- Optimized a high-volume messaging pipeline for 150K+ funding messages per hour, cutting publication time from 30 minutes to under five minutes using Apache Kafka and asynchronous processing.

JPMorgan Chase

Bournemouth, United Kingdom

SOFTWARE ENGINEER SUMMER INTERN

Jun. 2018 - Sep. 2018

- Used Java Spring Boot and Angular to build a Test Management Dashboard and search engine to track and operate on thousands of automated tests.

Education

University of Southampton

Southampton, United Kingdom

BENG IN SOFTWARE ENGINEERING (FIRST CLASS HONOURS)

Sep. 2016 - Jun. 2019

Sofia High School of Mathematics

Sofia, Bulgaria

SECONDARY EDUCATION DIPLOMA (5.91 / 6.00, A*)

Sep. 2011 - May 2016

Skills

Languages

Java, Python, TypeScript, JavaScript, Go, Kotlin, Dart, SQL, C#, C++, Rust, Bash, Lua, Haskell

Frameworks & Services

Spring Boot, React, Angular, Node.js, Tailwindcss, Dioxus, Flutter, Flask, Docker, Kubernetes, Terraform, gRPC, Protobuf, GraphQL, REST, WebSockets, Neo4j, AWS, Google Cloud (Vertex AI, BigQuery, Cloud Functions), Microsoft Azure, Azure Purview, PostgreSQL, IBM DB2, Kafka, Spark, Beam, S3, Jenkins CI/CD, TensorFlow/Keras, Machine learning, deep learning, LLMs, RAG

Soft Skills & Practices

MLOps, microservices, event-driven architecture, DDD, clean code, mentoring, Agile, Scrum

Certificates

Apr. 2026 **Claude Code Architect**, Anthropic

Mar. 2026 **Google Professional ML Engineer**, Google Cloud

May. 2023 **Certified Kubernetes Application Developer (CKAD)**, The Linux Foundation

Apr. 2023 **Microsoft Azure Developer Associate (AZ-204)**, Microsoft

Apr. 2020 **Oracle Cloud Architect**, Oracle

Feb. 2016 **Unity GameDev Course**, SoftUni
